PROFESSIONAL SUMMARY

Software programmer and virtual environment designer with 5+ years of technical experience in game development, training software, system maintenance, and education. Proficient in C#, Python, Lua, Unity, Unreal Engine 5, and database management. Proven track record developing interactive applications, training software for government institutions, and mentoring students. Seeking to leverage technical expertise and problem-solving skills in a challenging development role.

PROFESSIONAL EXPERIENCE

Training & Teaching Software Developer

June 2026 – Present | Argentine Navy (Armada Argentina)

- Developing training and teaching software for Argentine Navy in collaborative team of 3 developers
- Built interactive training applications using Unity to support military educational initiatives
- Contributed to mission-critical training software with emphasis on user experience and accessibility

Programming Instructor

June 2026 | Instituto Inmaculada Concepción de Almagro

- Instructed 30+ high school students in Python and Visual Basic programming fundamentals
- Developed and delivered engaging lesson content for intensive one-week programming course

- Provided hands-on guidance to students in object-oriented programming concepts and practical application

Level Designer

February 2025 – December 2025 | Current Project

- Designed and implemented engaging level layouts for mobile game, optimizing gameplay flow and user progression
- Conducted quality assurance testing and identified critical gameplay issues, improving overall user experience
- Collaborated with development team to design and refine game mechanics, contributing to core gameplay systems

Substitute Level Design Teacher

August 2024 – June 2025 | Escuela Da vinci

- Developed and delivered engaging lesson plans for game design courses to 20+ students
- Covered for absent instructors while maintaining educational continuity and student learning outcomes
- Evaluated student progress and provided constructive feedback to support skill development

Teaching Assistant – Game Design & Programming

August 2023 – December 2025 | Escuela Da vinci

- Assisted in curriculum planning and delivery for game design and programming courses
- Provided one-on-one mentoring to students with learning challenges, improving comprehension and retention
- Demonstrated proficiency in C#, Unity, and game development fundamentals

Cashier & System Maintenance Specialist

May 2019 – September 2022 | Quesería Saint Germain

- Managed daily cash operations and customer transactions with 100% accuracy
 - Maintained and troubleshooted business software systems and POS equipment, minimizing downtime
 - Managed business accounts and inventory, supporting administrative operations
-

EDUCATION

Designer & Programmer of Virtual Simulators

Escuela Da Vinci de Arte Multimedia | March 2021 – March 2025

High School Diploma – Information Technology

Instituto Virginio F. Grego | March 2015 – December 2020

French Language Studies (B1 Level)

Allianz Français de Buenos Aires | April 2019 – September 2023
